

Instructions for secure access services

To avoid security messages like the one in the picture, you must install root and sub-root certificates of Regione Marche on your pc between the trusted Certification Authorities.

Download the zip certificate from the links

<http://www.cartaraffaello.it/LinkClick.aspx?fileticket=KBewL%2f4kLt8%3d&tabid=95&language=en-US>,

extract the files and save them on your PC

- On the Internet Explorer menu "Tools" select "Internet Options", "Content" tab, click on "Certificates"
- Select the "Trusted Root Certification Authorities" and import both certificates using the wizard
